- 15 configurable sounds
- Program editor for variable tempo and repeats , beats and tempo-increment and / or decrement.
- Tempo and beat visualization
- Fullscreenmode

# Introducing in Metronom Plus

The Mainwindow

The easy mode :

Configure the tempo and beat using the fastbuttons or the plus / minus button on the left side..

After this , enter the sounds you want use :

Sound 1 : Masterbeat

Sound 2 : Always the first beat

Sound 3 : Sounds on 6/8 9/8 and 12/8

Click on the start button to activate the Metronome.

Programmode :

The basic settings are the same as in easy mode. Activate the programmode using the Prog-Button and

define a program afterwards :

First choose the tempo for each single program step. After this , you can define an increment or decrement value for tempo-changing ( optional ) in the same program step. Now define the number of repeats and the beat.

Click on the start button to activate the Metronome.
